DEAR *Comune di Castagneto*

Thanks a lot for having come forward to help us and more than that your generosity during when people are in agony. During the tsunami and the sea erosion our village was completely washed out and the livelihoods such as boats and catamarans were broken into pieces, Two children have died from our place. People are not going for fishing. Nearly 92 houses were damaged.

Ofcourse God will bless abundantly your family and your children. I don't know how we are going to make up all these and once again gear the people to fir fishing. People of good heart are coming forward to help us .Once again I do sincerely thank you for the boat and the out board motor you have given.

Lovingly,
Fr Anto Vijayan.
